EDUCATION

Higher School of Economics

Bachelor of Computer Science

2020 – 2024

Moscow, Russia

PROJECTS

Searching for similar projects | *Python, ElasticSearch*

November 2021 – June 2022

- Created an index of repositories on github for a quick search for the most similar projects
- Worked in a team of 4 students under the mentorship of a developer from JetBrains

Determining the type of movement | *Python*

July 2021 – August 2021

- Collected data for project in a group of several students
- Based on movement data collected using a mobile phone, determined the types of movement, such as walking and running

Github pages resume | *Docker, github pages*

December 2021

- Used docker and github workflows to compile my LaTeX resume automatically
- Used github pages to host my resume
